ULRICH VAN BELL

Deep, driving underground techno.
Where tension and emotion shape the night.

ULRICH VAN BELL

For more than three decades, Ulrich Van Bell has built his path through electronic music around one constant: taking the crowd on an emotional journey.

Born in Quebec City and based in the Montréal area, Ulrich began DJing on vinyl in the early 1980s. His journey has since evolved through DJing, music production, remixing, mastering and label development, with performances and musical activity extending beyond **Canada to France, Egypt and the United States.**

Today, his artistic direction is firmly rooted in **Underground Techno.**

Hypnotic movement, driving rhythms, dark textures, groove and controlled tension define his current sound.

Behind the decks, Ulrich approaches each set as a journey. Rather than chasing one peak after another, he builds evolving energy, allowing tension, groove and atmosphere to develop naturally while maintaining a strong connection with the dancefloor.

His catalogue includes releases on **Coldharbour Recordings, Coldharbour Black, Garbage Records and Undgrd Music,** alongside his involvement with **B2P Records and Black Therapy Records.**

After all these years, Ulrich Van Bell isn't interested in recreating the past or chasing trends...

The objective is a deep connection with the crowd to create unforgettable memories.
